SUMMER SCHOOL

Perspectives on Regulatory Cooperation

June 19-23, 2017

Campus Luigi Einaudi - Turin

The Summer School on "Perspectives on Regulatory Cooperation" is organized by the Collegio Carlo Alberto. The course programme is designed to explore the normative questions raised by the emergence and the crisis of regulatory spaces that go beyond the State. The School offers participants the possibility to critically engage with mechanisms that promote regulatory cooperation across borders, the interaction between public and private bodies, their impact on democratic decision-making and on the safeguard of competing interests and values. All these issues are examined by looking both at the EU and at the international legal order, as well as from a comparative perspective.
