

Data and research: themes

- Interaction between financial markets and the real economy (start-up funding, impact finance, infrastructure, etc.),
- Role of LTIs in traditional financial markets (systemic risk, stability, pro or countercyclicality, liquidity and impact on prices ...),
- Risk and return of private markets (private equity, private debt) and ALM of LTIs,
- Active and passive investors,
- Benchmark investing, delegation and effectiveness of monitoring (short term accountability versus long-term strategies),
- The collective costs of short-horizon investment and their control (regulatory constraints)
