This Master prepares students for highly skilled occupations that benefit from a strong quantitative finance background. These include careers in risk and asset management, in FinTech, in securities design and trading, in banking and actuarial jobs.

The Collegio Carlo Alberto, a joint initiative of the Compagnia di San Paolo and the University of Torino, fosters advanced research and teaching in economics, finance and political science. The Collegio shares the values and best practices of the international academic community. Nearly 400 people including students, researchers, fellows, junior and senior faculty hired on the international academic job market and visiting scholars create a dynamic research and teaching environment.

placement
The placement record for previous graduates is excellent and includes a large variety of firms, banks and organizations in the financial industry such as:

We organize on-site career days.

Applications have a degree in either Economics, Business, Maths, Engineering, Statistics, or Physics. Students with laurea magistrale or equivalent graduate degree are awarded of the second level Master of the University of Torino, in addition to the Master of the Collegio Carlo Alberto.
