

The Collegio and the Environment

RITA MESSING. NATIONAL GEOGRAPHIC YOUR SHOT

think about our impact

To reduce its impact on the environment, the Collegio will incorporate programs and practices in its activities in order to develop and maintain a sustainable and environmentally responsible way of working, and will encourage waste minimization.

Each of us can reduce the impact of the Collegio on the environment by adopting simple low-cost and even no-cost measures. Please see:

carloalberto.org/about/the-collegio-and-the-environment

our goal is a plastic free building: help us!
