This Master prepares students for highly skilled occupations that benefit from a strong quantitative finance background. These include careers in risk and asset management, in Fintech, in securities design and trading, in banking and actuarial jobs.

The Collegio Carlo Alberto, a joint initiative of the Compagnia di San Paolo and the University of Torino, fosters advanced research and teaching in economics, finance and political science. The Collegio shares the values and best practices of the international academic community. Nearly 400 people including students, researchers, fellows, junior and senior faculty hired on the international academic job market and visiting scholars create a dynamic research and teaching environment.
