

Development Economics

Collegio Carlo Alberto - Spring 2021

Instructor: Juan S. Morales

E-mail: juan.morales@carloalberto.org

Lectures: TBD

Office hours: TBD

Course Description:

This course presents an overview of topics in Development Economics. This field studies issues related to developing countries: the possible reasons why some countries are poor and others rich - geography, history, institutions, culture; the progress that we have seen over the last century and potential interventions - trade and migration, health, education; and some of the challenges currently faced - corruption, conflict. The course provides a look at these issues reading through a mix of seminal books and papers, as well as more recent work on these topics.

Pre-requisites:

Econometrics I

Applied Economics (recommended)

Grades:

Midterm (20%)

Term paper (20%)

Presentation + report (20%)

Final Exam (40%)

Participation (+10%)

Outline and reading list (*required) :

1. Introduction

*Rosling (2007) Ted Talk: https://www.ted.com/talks/hans_rosling_reveals_new_insights_on_poverty

*Ferguson and Lohman (1994) "The Anti-Politics Machine: "Development" and bureaucratic power in Lesotho". *The Ecologist* (+Book Preface)
