Policy for students with learning disorders

In order to provide an accessible and inclusive educational experience, we ask students to follow these steps:

1. Students from UniTo or PoliTO should first contact the learning disorder office of [UniTo](#) or [PoliTO](#).
2. After obtaining the paperwork from the learning disorder office, students should contact the instructor. Students should contact instructors early in the class (ideally within the first two weeks of classes). Students should let instructors know which accommodation they need.
3. Instructors will accommodate students' needs. For example, students who request so will get 1/3 extra time in exams.
4. In case students have any questions, they can always contact our faculty liaison for learning disorders ([Ainoa Aparicio Fenoll](#)). Students can also contact our faculty liaison if they do not obtain an appropriate response from instructors.
